

Tamarack Wildlife Center's Wildlife First Responders Course 2022

What: Learn to be a Wildlife First Responder

When: Course access begins Tuesday, February 1, 2022

Where: Online via Google Classroom

Who: Adults

Fee: \$40 (Includes a one year membership with Tamarack Wildlife Center)

Our 2022 Wildlife First Responders course will be an online class with video segments, electronic handouts, live Q & A sessions via Google Meet, and an in-person reception at the center. The online course will be available February 1st-28th with optional in-person wildlife capture practice sessions held at the center on February 11-13th and 18-19th.

You will learn when to intervene and when not to and how to capture, stabilize, and transport injured birds and other wildlife. While the main focus of the class is learning how to respond when you find wildlife in need, you will also be introduced to opportunities to help wildlife by volunteering with the center. Those wishing to volunteer by answering our wildlife phone helpline for a 4 hour shift each week will receive a rebate of \$20 once started as a volunteer (with mentoring) after the course. Sign-up for capture practice is on a first come, first served basis, so register early!

For more information, call Tamarack at (814) 763-2574. If you need to pay with cash, please call the center. **Pre-registration is required in order to be given access to class materials.**

Registration deadline is Monday, January 31, 2022

To register, mail the bottom portion of this form and \$40 (check) to:

Tamarack Wildlife Center 21601 Stull Rd., Saegertown PA 16433
